Steering Committee

One representative from each TARCC member institution is appointed by his/her institution to serve on the TARCC Advisory Steering Committee (ASC). The Steering Committee serves in an advisory role to the Council on consortium activities, including the settling of research priorities and policies, data collection, research activities, and reporting of findings among the participating medical schools and health science centers. Members include:

Baylor College of Medicine, Houston

Rachelle Doody, M.D., Ph.D., is the Effie Marie Cain Chair in Alzheimer's Disease Research, and Professor of Neurology in the Department of Neurology at Baylor College of Medicine in Houston. She received a Ph.D. in Cognitive Anthropology from Rice University where she studied the brain and language. She earned a M.D. from Baylor College of Medicine, and completed her internship and residency training there and at the Royal Victoria Hospital and Montreal Neurologic Institute in Montreal.

Primary Research Interests: Cognitive aspects of Alzheimer's disease, dementia, and aphasia; Alzheimer's disease therapeutics and modeling of progression for clinical prognostication, validation of biological markers, and enhancing design of AD clinical trials.
