

Scientific Manager

Robert C. Barber, PhD., is the Scientific Manager for TARCC and Associate Professor, Department of Pharmacology and Neuroscience at the University of North Texas Health Science Center. Dr. Barber earned a PhD in Human Genetics from Texas A&M University in 1997. Since then, his research efforts have focused upon resolving genetic variants and proteomic biomarkers that are associated with a variety of complex human diseases, including defects of neural tube formation and a dysregulated innate immune response to traumatic injury, as well as Alzheimer's disease and other forms of dementia.
